Broadcaster Performance Envelopes .....	1
French-language Projects Outside Quebec.....	22
Aboriginal-language Projects .....	24
Versioning Assistance .....	25
Development Financing .....	26
Digital Media Program .....	38

## Broadcaster Performance Envelopes (2009-2010)

### Funding Results – Q4

In April 2009, broadcasters were allocated amounts of CTF funding, called Broadcaster Performance Envelopes (BPEs), for the 2009-2010 fiscal year to commit to television projects. These amounts were calculated based on broadcasters' performance relating to CTF-eligible programming. CBC/Radio-Canada, CBC News Network, RDI, and bold received 37% of available funds as their BPE.

Totals for approved 2009-2010 BPE stream applications, as of March 31, 2010, are shown below.

English BPE Stream		(\$)
Total 2009-2010 envelope		194.2 million
Total approved applications		194.2 million
French BPE Stream		
Total 2009-2010 envelope		91.2 million
Total approved applications		88.8 million
Production Incentive Program		
Total Atlantic Canada area envelope		1.9 million
Total approved applications		1.9 million
Total British Columbia area envelope		8.1 million
Total approved applications		7.8 million
Quebec Regional French-language Production Incentive		
Total Quebec Regional envelope		0.8 million
Total approved applications		0.8 million

*Note: Amounts are current to March 31 2010. Figures are rounded.*

In the first attachment below, approved applications have been organized by language and genre of production with summary totals. BPE contributions to Aboriginal-language productions are an exception, as they are listed under the language of BPE contribution. Each broadcaster's BPE contribution amount for a project is shown as well as the total BPE funding committed. Other broadcasters may have co-licenced the production without contributing CTF funding and would not be shown here. Projects receiving funds from the Production Incentive Program and the Quebec Regional French-language Production Incentive have the commitment amount illustrated. CBC/Radio-Canada has its own Production Incentive and Quebec Regional French-language Production Incentive envelopes. Total BPE funding shown for a project does not include any funding committed from the French-language Projects Outside Quebec or Aboriginal-language Projects streams. Lists of commitments from these streams can be found on the funding results page.

Results of transfers and exchanges between BPEs can be found in the second attachment below. Broadcasters within the same corporate group can transfer BPE amounts within the same language and genre (or between flex amounts). Broadcasters from different corporate groups can exchange equal BPE amounts within the same language and between two different genres (or the flex amount). Note that approved applications are shown with the amount committed from each BPE (there can be more than one), the applicant production company, region of production and total broadcast length. For inter-provincial co-productions, the region of control reflects the residence of the majority co-producer and the location of principal photography.

## Development Financing (2009-2010)

### Funding Results – Q4

The CTF development stream supports projects prior to entering the production or pre-production phase. It consists of several sub-streams: English Broadcaster Development Envelopes (EBDE), French-language Selective, French-language Quebec Regional Development, French-language Quebec Regional Project Pre-development, and Aboriginal Development. For the English and French streams in 2009-2010, CBC/Radio-Canada has a 37% envelope to be allocated to projects accordingly.

The 2009-2010 contributions represent \$6.3 million to English, \$3.1 million to French, and \$429 thousand to Aboriginal projects. Approved applications from the Development Financing stream are available through downloading the document, found below.

## Digital Media Program (2009-2010)

### Funding Results – Q4

Launched in 2008-2009, the Digital Media Program is aimed at generating a stronger Canadian presence in new media. The program supports Canadian audiovisual, multimedia, and interactive projects associated with CTF-funded television productions.

Funds are dispersed to eligible Canadian productions on a first-come, first-served basis in the form of a grant. A total of \$10 million was allocated for 2009-2010 and \$9.6 million was committed to 77 projects,

Totals for approved 2009-2010 DM program applications, as of March 31, 2010, are shown below.

2009-2010 Digital Media Program Approved Applications			
Related Television Project	Applicants	Region	Funding (\$)
